“ When I met Don for the first time he was very welcoming to me. I can tell he was excited to learn that we both had interest in knives and guns. Of course it was hard to top his love for knives as I'm sure you know. Before leaving from our visit he gave me a Russian bayonet for my Romanian AK-47. He didn't have to do that and it was truly very thoughtful of him. That is something I will always remember. Godspeed Don...
